Waste Tire Cleanup Request Form

Any nonprofit organization can apply for and receive funding from the State of Missouri for a tire cleanup. There is no cap on the number of waste tire cleanups an organization can complete on an annual basis. If your nonprofit organization cannot afford to pay upfront for the tire cleanup, Regulated Industries can provide the funding for you. The state will only pay a maximum of \$2 per tire for the cleanup. There are factors that will make the cost of each tire rise which include if the tire is full of mud, concrete, or gravel or if the tire has a wheel attached to it. **Regulated Industries Division will only pay for the portion of the tire cleanup that is covered by the state and the neighborhood association or nonprofit organization will be responsible to cover all extra expenses.** If you are interested in conducting a tire cleanup and you want the State to cover the cost via Regulated Industries Division, please fill out this application and submit it to Regulated Industries Division.

Please type or print the following information

Neighborhood association or nonprofit organization name			
Neighborhood association/ nonprofit organization address	City	State	ZIP
Applicant's name	Day time phone number
